

## ACT SKILLS NEEDS LIST 2019

The ACT Skills Needs List identifies the skills needs within the ACT. It enables the ACT Government to better target vocational education and training funding to develop a productive and highly skilled workforce which contributes to the ACT's economic future.

The list also directly informs ACT funding priorities at a qualification level for vocational education and training and the level of subsidy provided for a training place in those qualifications offered in the Skilled Capital and ACT Australian Apprenticeships (User Choice) initiatives.
