

Skilled Capital

What is Skilled Capital?

Skilled Capital is an ACT Government funded program that provides subsidised training in qualifications and skill sets where there are skills needs in the ACT. There are lots of jobs that are in high demand in the ACT but there are not enough people with the qualifications to do them. The ACT Government is paying for part of your training in the qualifications needed for these jobs.

What do I get out of it?

By doing a qualification through Skilled Capital, you know you are getting a qualification in an area where there is a demand for skilled workers. You are also paying a reduced amount for your qualification because the ACT Government is subsidising the cost of the training.

You can also access a \$300 completion payment when you finish your qualification through Skilled Capital.*

* eligibility conditions apply

There are a range of qualification levels to choose from and over 50 registered training organisations (RTOs) approved to deliver these qualifications.

How do I do it?

1. Check if you are eligible to undertake a Skilled Capital qualification by answering a few short and simple questions on the Skilled Capital Eligibility Calculator located on the Skills Canberra home page.

<https://www.skills.act.gov.au/>

2. Review the qualifications available under Skilled Capital and find one that matches your interests.

<https://www.skills.act.gov.au/squalification>

3. Contact Registered Training Organisations (RTOs) approved to deliver the qualifications to discuss the services they offer and the options available to you.
